## WOMAN THROWN FROM AN AUTO

Salt Lake, May 18.—Mrs. Sadie Wilkins, aged 40, and the wife of John T. Wilkins, a teamster for a local furniture company, is dying at the family home, 754 South West Temple street, as a result of being thrown out of an automobile at Fourteenth South and Redwood road early last Wednesday morning. George Moore, a public chauffeur, living at the Lennox hotel, is under arrest at the police station on a charge of assault with intent to commit murder, the charge being made by Detectives C. C. Carstensen and H. D. Lyon, who have been investigating the case. Mrs. Wilkins has been in an unconscious condition since she was taken home, and has been unable to shed any light on the affair.

Moore was arrested yesterday afternoon in his room at the Lennox and accused of the crime by the detectives. According to Detective Carstensen he first denied knowledge of the affair, but when he was identified by Miss Hattie Wilkins, a daughter of the dying woman, as the man who brought her mother home, he admitted knowing of the affair. He told the detectives that he was driving the machine, but that there was another man in the car with him. He said that the man quarreled with Mrs. Wilkins and in a scuffle threw her from the machine.

It is understood that the skull suffered a fracture of the skull and hemorrhage of the brain. Dr. R. A. Hasbrouck, who is attending her, refused last night to state the extent of her injuries. Relatives said she was very low and in a dying condition. When asked whether that was the case, Dr. Hasbrouck replied that he had not seen her since morning.

It was said last night that a valuable gold locket worn by Mrs. Wilkins had been the cause of the trouble. According to a story told at police headquarters Mrs. Wilkins was wearing the locket and her assailant endeavored to take it away from her. In the ensuing scuffle she fell from the car. Members of the family said last night that the locket was missing.

Hattie Wilkins told detectives she was awakened at an early hour Wednesday morning and went to the door. When she opened it a man thrust the unconscious form of her mother into her arms, ran out to an automobile and fled. Yesterday she identified Moore as the man and said that there was nobody in the machine with him at the time.

Moore declared that while he was in the party and driving the machine, it was a man who worked in Garfield who threw the woman from the machine. He said he picked her up and took her home. Detectives Carstensen and Lyon went to Garfield last night to investigate the story of Moore and returned, saying that they did not find any such man.

Moore is 28 years old and has had a stand on Second South street between Main and State streets, where he has operated an automobile in taxi service. He has been lodged at police headquarters twice before on charges of intoxication.

## AMERICANS ARE PUT TO DEATH

San Francisco, Cal., May 18.—Reports of the murder of Americans, the capture of a Mexican transport of the American brig Geneva, the imprisonment of United States Consul Clement S. Edwards of Acapulco, and many atrocities on the west coast of Mexico were brought in yesterday by the officers and 150 refugees on the British steamer Cetrania, which arrived today from Manzanillo.

Lieutenant Edward J. Minister, royal naval reserve commander of the Cetrania, got his steamer loaded with refugees, away from Manzanillo by daring and skillful action on April 28 when he believed the Mexicans were preparing to burn the dock by firing and dynamiting the wharves. According to the refugees, when news of the capture of Vera Cruz by

## M'REYNOLDS TO LEAVE CABINET

Washington, May 17.—Latest developments in the New Haven investigation, as now being conducted by the interstate commerce commission, place Attorney General McReynolds in an exceedingly precarious position as to his cabinet tenure of office.

Although the attorney general said last week that he would bow to the mandate of the senate and the commission and say no more with a view of checking the taking of testimony, he is said to be trying still to block the progress of the investigation.

However, it was learned that the New Haven situation was placed before the president by senators interested as early as last February and that the president offered no objection to the senate resolution under which Governor Folk and the commission are carrying on the New Haven investigation.

This accounts for the cold reception given the attorney general by both President Wilson and the cabinet in his appeals that Folk be checked.

### Resignation Suggested.

Standing at the cabinet table last Friday Attorney General McReynolds delivered himself of a long explanation of his attitude in the New Haven case. He was listened to by all present in cold silence. Later, it is creditedly reported, he sounded out a member of the cabinet on the advisability of tendering his resignation on the ground that by remaining in the cabinet he might embarrass the administration. The cabinet member avoided a direct reply, but suggested that the question be put up to some of the senate leaders.

The attorney general is expected to soon make a public statement of his attitude in addition to the explanation made public last week through his letter to the interstate commerce commission asking that the investigation be halted.

It is believed that before former President Mellen of the New Haven ends his testimony before the interstate commerce commission he will have unfolded the most amazing story of all the remarkable revelations in American finance.

### Will Not Go Unpunished.

It is said to be plain that those responsible for the wrecked New Haven and ruined stockholders will not go unpunished of justice. Their punishment is coming either through the blasting of proud reputations or through the locked doors of a prison.

Rising from the wreck the commission plans constructive legislation that will end for all time the possibility of another New Haven scandal and as part of the constructive program the reorganization of the New Haven's finances with those responsible for the disaster separated from control is included.

On Tuesday morning when Mellen takes the stand he will be asked to show just where some of the many millions of the New Haven's "slush funds" went. Then when this is determined, proceedings will be brought against the person or persons or corporations who profited by any of the mysterious deals and the money will be turned, if possible, in the proper channels.

It was intimated today that the Tammany tiger would be attacked. How Mellen utilized the services of Tammany in furthering the interests of the New Haven will be but one of the features in Tuesday's session, according to reliable forecast. It will also be brought out that the Republicans and Democratic machines of the states of New York, Massachusetts and Connecticut got mixed up in the deals.

## MEDIATORS HAVE NOTHING TO SAY

New York, May 18.—Mediators named by Huerta as his representatives at the peace conference at Niagara, Ont., arrived from Washington and will remain at the Hotel Astor until Tuesday night. Senor Emilio Rabasa, Don Luis Eugenio and Senor Augustin Rodriguez were silent regarding the instructions given to them before their departure from Mexico City.

Senor Rabasa, when questioned by a reporter, for the International News Service, said:

"We are very much impressed and delighted with the friendly and cordial spirit in which we have been received in every place since we reached the United States last week. It is our earnest desire that we may be instrumental in cementing the friendship between our two nations and leave the country under the most pleasing conditions."

Senor Elguero refused to make any predictions as to the outcome of the conference or as to the probable length of their stay at Niagara. He said:

"We have accepted our present missions entirely from a patriotic standpoint. What our instructions are is another matter. We can not, of course, disclose such information at this time, but this much I will say, that they apply only to foreign matters and in no way touch our domestic affairs."

Senor Rodriguez, who gave the impression of being the diplomat of the delegation, said:

"You may say that we are deeply grateful and indebted to the Spanish ambassador in Washington for his hospitality to us."

In answer to other questions, Senor Rodriguez said:

"Yes," "Maybe," or "I don't know."

The meats containing a large number of diseased animals

After you are aware that the Government destroyed during the fiscal year 1913, 250,661 whole carcasses and 506,449 part carcasses, or more than three quarters of a million of Food Animals intended for food purposes, we know what your decision will be.

JUST THINK! 757,110 Cattle, Sheep, Hogs and Calves. It is almost unbelievable; yet it is an undisputable fact, which may be verified by directing an inquiry to the Bureau of Animal Industry, Washington, D. C.

NOW—What becomes of these diseased animals at slaughter houses where there is no inspection?

They are not condemned or destroyed—They are simply placed for sale at meat markets who handle uninspected meats, and if you purchase your meats at such a market,

giving notice of the government's position in the matter of paying taxes. The department constantly receives notices from municipal officers of taxes or assessments against United States property for such improvements as sewers, sidewalks, street paving, gutters, curbing, street lighting, etc., and for sprinkling streets, removing snow and ice from sidewalks, caring for trees, etc., for the pavement of which no appropriation is made by congress.

The department asserts that a long line of decisions has established its contention that the United States is not liable for an assessment levied by local authorities even though the improvement may be a direct benefit to the property. Therefore, the department can not join in the cost or repair of a public sewer.

Sidewalks and curbing are constructed about federal buildings and kept in repair as part of the approaches to such buildings, but this is the only character in the nature of street improvements which the department is permitted to make. While the department will not recognize any assessment against its property for the removal of snow and ice from sidewalks, the government does make provision for the accomplishment of that result and the custodian of the building is expected to attend to such matters.

### MRS. SWENSON'S DEATH IS SHOCK TO FRIENDS

Salt Lake, May 18.—The sudden death of Mrs. Isabella Romney Swenson, 29 years of age, wife of A. J. Swenson of the Z. C. M. I. came yesterday as a severe shock to a large host of friends and relatives.

Mrs. Swenson was a daughter of Bishop George Romney and Villie E. Romney of the Twentieth ward, where she resided for thirty-five years.

As a member of the Twentieth ward choir, Young Ladies' Mutual and later in the Relief society, her usefulness and efficiency had been such as to distinguish her activities not only in the Twentieth, but also in the Thirty-third ward, at which latter place she had resided the past five years, still further increasing the number of friends, and it seems the memory of her devoted labors for others in both wards serves only to intensify the sorrow that so many now feel at her unexpected departure.

Besides her parents, many brothers and sisters, she leaves her husband and four children—Nannie, aged 18; Lillian, 15; Douglas, 9, and Josephine, 7.

After two weeks' severe illness of nervous prostration, Mrs. Swenson died Saturday at her home, 463 South Thirtieth East street where the body may be viewed Tuesday between 10 and 12 noon.
